

DEPT: B.Com Computer Applications

Year: I Semester: I

SUBJECT NAME : Financial Accounting I

SUBJECT CODE:BPC1A

(Learning Outcome/ Acquisition)

CO1: Develop the ability to use a basic accounting system to create the data needed to solve a variety of business problems.

CO2: Develop the ability to use accounting concepts, principles and frameworks to analyse and effectively communicate information to a variety of audiences

CO3: Prepare financial statement in accordance with Generally Accepted Accounting for Trading and Non-profit organisations

CO4: Understand how errors can be identified and rectified

CO5: Understand the concept of depreciation for assets, its various methods and accounting procedure. Amendments in Accounting Standard, 2013. Preparation of insurance claims.

CO6: Ability to calculate the profit or loss by using Single Entry System.

DEPT: B.Com Computer Applications

Year: I Semester: I

SUBJECT NAME : Information Technology

SUBJECT CODE:BPC1B

(Learning Outcome/ Acquisition)

CO1: Exploring the components and working principles of computer.

CO2: Understand how the graphical data stored in memory and processing textual data

CO3: Get to know about memory units and output devices

CO4: Learn about computer software and the network concept.

CO5: Gain knowledge about internet, email and use of computer in business

DEPT: B.Com Computer Applications

Year: I Semester: I

SUBJECT NAME : Business Economic

SUBJECT CODE:BTC1A

(Learning Outcome/ Acquisition)

CO1: Understand the scope and importance of business economics.

CO2: Describe about demand, supply concepts and demand forecasting.

CO3: Understand the concept of law of diminishing marginal utility and indifference curve.

CO4: Describe about variable proportion, law of returns to scale, BEP and economies of scale.

CO5: Understand about market structure and Price and output determination of different market.

DEPT: B.Com Computer Applications

Year: I Semester: II

**SUBJECT NAME : Advanced Financial Accounting SUBJECT CODE:BPC2A
(Learning Outcome/ Acquisition)**

CO1: Preparation of Branch accounts for different kinds of branches.

CO2: Description of Department and the difference between branch and department.

Preparation of accounts for various departments and finding profit separately for departments.

CO3: Understand the concept of hire purchase and instalment system of accounting.

CO4: To introduce about Partnership accounts. To provide the students knowledge about the documents to be maintained and various accounting procedures.

CO5: To introduce various accounting procedures for admission of a new partner, value of goodwill and preparation of accounts for firms.

CO6: Introduction of accounting procedures for retirement, dissolution of a firm.

CO7: Preparation of statement of disbursement at the time of dissolution of a firm.

DEPT: B.Com Computer Applications

Year: I Semester: II

**SUBJECT NAME: Information Technology –lab SUBJECT CODE:BPC1B
(Learning Outcome/ Acquisition)**

CO1: Students can create text documents; insert header/footer and do formatting.

CO2: Explore the features of MS Office and get to know about the tools like spell check

CO3: Learn to insert pictures, objects , use the template and mail merge option.

CO4: Students can create a worksheet using MS Excel and insert data, pictures and format.

CO5: Get to know about the available functions in Excel and use formulae.

DEPT: B.Com Computer Applications

Year: I Semester: II

**SUBJECT NAME : Indian Economy SUBJECT CODE:BTC2A
(Learning Outcome/ Acquisition)**

CO1: Understand the Economic development and economic growth.

CO2: Describe about poverty, population and unemployment.

CO3: Acquired knowledge about the agriculture and Public distribution System.

CO4: Describe about the small scale, large scale and cottage industries,

CO5: Understand about the 1 to 12" five year planning in India.

DEPT: B.Com Computer Applications

Year: I

Semester: II

SUBJECT NAME : Corporate Accounting I

SUBJECT CODE:BPC3A

(Learning Outcome/ Acquisition)

CO1: To know about underwriting of shares; redemption process and its legal provisions; understand about forfeiture and reissue of shares and its entries

CO2: To learn the accounting entries with regard to issue and redemption of debentures; To calculate the liability of underwriters in case of underwriting; to calculate profit prior to incorporation

CO3: To prepare profit and loss account and balance sheet of Companies as per revised Schedule VI

CO4: To learn the various methods of goodwill and shares; treatment of accounting and maintenance of records with regard to valuation of goodwill and shares.

CO5: To understand the various methods of reduction of share capital; to learn the accounting entries relating to the internal reconstruction and reduction of share capital.

DEPT: B.Com Computer Applications

Year: II Semester: III

SUBJECT NAME : Business Law

SUBJECT CODE:BPC3B

(Learning Outcome/ Acquisition)

CO1.To learn the provisions of Indian contract act; to understand the nature and all essential elements of a contract;

CO2.To understand the meaning and provisions of offer and acceptance; to know about consideration and its different types

CO3.To understand the competency to enter into contract and various flaws in competency like coercion, undue influence, fraud, misrepresentation, mistake etc.,

CO4.To learn about the performance of contracts, its types; quasi and other contracts and tender; to know about the discharge of contract, its modes and various remedies available for breach of contract

CO5. To understand the sale of goods act provisions; differences between sale and contract; meaning of goods, conditions and warranty- caveat emptor principle and its exceptions – to know the rights available to an unpaid seller.

DEPT: B.Com Computer Applications **Year: I Semester: II**
SUBJECT NAME : Computerised Accounting – Theory & Practical
SUBJECT CODE: BPC31

(Learning Outcome/ Acquisition)

CO1: Students acquired knowledge about the basic concept of computerized accounting and inventory system.

CO2: Students understood about the accounts master and inventory masters

CO3: Students learnt about the accounts voucher and inventory vouchers

CO4: Students got an in depth knowledge about how to give accounting reports like trial balance, Profit and Loss account, Balance sheet and bills receivable and bills payable in this software.

CO5: Students got an insight about the inventory report and accounts report, stock summary, group summary.

Tally Practicals

CO1 To create a Company creation in the tally and configure

CO2 To classify the accounts master and inventory master

CO3 To view the report of the Balance sheet

CO4 To view the report of the Profit and Loss account

CO5 To view the report of the Trial Balance

CO6 To view the report of the Stock Items and Reorder level

CO7 To view the report of the Purchase and sales orders

CO8 To view the report of the Invoice Entry

CO9 To input the different Inventory items like stock group, stock item and units of measure.

CO10 To view the report of the Books of accounts

DEPT: B.Com Computer Applications **Year: II Semester: III**
SUBJECT NAME: Object Oriented Programming with C++ – Theory & Practical
SUBJECT CODE: BPC32

CO1 Understand the concept of Object Oriented Programming and class model, state model and interaction Model.

CO2 Learn do simple program and concept of kens and control structures

CO3 Understand the importance of function and know about how write functions.

CO4 Learn about how declare a class, importance of constructor and destructor

and importance of function overloading

C05 Acquire the knowledge about inheritance, about Virtual function and Polymorphism and file operations.

DEPT: B.Com Computer Applications Year: II Semester: IV

SUBJECT NAME : Business Statistics & Operation Research I

SUBJECT CODE: CDC3A

(Learning Outcome/ Acquisition)

CO1 Describes the meaning and concepts of statistics and different methods of presentation of statistical data

CO2 Demonstrates different measures of central tendency, variations and identifies the significance of coefficient of variation

CO3 Identifies the various types of correlation and its significance

CO4 Estimates the value of unknown variable using regression

CO5 Reveals the components of time series and analyse the cause of variations in time series

CO6 Facilitates the application of statistics in business and economics using index numbers.

DEPT: B.Com Computer Applications

Year: II Semester: IV

SUBJECT NAME : Advanced Corporate Accounting SUBJECT CODE: BPC4A

(Learning Outcome/ Acquisition)

CO1. To understand the accounting procedures in case of amalgamation, absorption and external reconstruction.

CO2. To learn the preparation of P&L account and Balance Sheet of the banking companies and the Insurance companies.

CO3. To understand the preparation of statement of affairs in case of liquidation and liquidators final statement of account

CO4. To prepare the consolidated Balance sheet of Holding and Subsidiary company; To know how to calculate the revenue profit and capital profit and other workings with regard to consolidation.

CO5. To know the different methods of calculations in case of inflation accounting like COSA, CPP and HCA; To understand the different accounting procedures in case of mechanised accounting, Social responsibility and Human Resource accounting.

DEPT: B.Com Computer Applications

Year: II Semester: IV

SUBJECT NAME : Principles of Management

SUBJECT CODE: BPC4B

(Learning Outcome/ Acquisition)

CO1 Students learned about the importance of management its nature and scope, process and function of the manager.

CO2 Students learned about Steps in planning, Policies, Procedures, Nature and Types of policies.

CO3 Students gained knowledge towards organizational structure, its control, departmentalization and informal organization.

CO4 Students obtained knowledge about, authority, delegation and decentralization process. They also learned about responsibility of management towards recruitment process, selection and training methods.

CO5 Students gained information regarding Co-ordination and Controlling meaning and importance as well as Control

DEPT: B.Com Computer Applications

Year: II Semester: IV

SUBJECT NAME: E-Commerce

SUBJECT CODE: BPC4C

(Learning Outcome/ Acquisition)

CO1 To understand the concept of E-Commerce and to know its evolution in the field of commerce and industry.

CO2 Integrate theoretical frameworks with business strategies. Have the knowledge of the different types of management information systems.

CO3 The ethical, social, and security issues of information when using E-commerce in the field of Business

CO4 Assess the impact of the Internet and Internet technology on business electronic commerce

CO5 Strategies of e-commerce in the field of marketing and in sales promotion in activities.

CO6 Develop and understand the concept of Electronic Data Interchange

CO7 Understand the role of information systems in organizations, the strategic management processes, and the implications for the management.

DEPT: B.Com Computer Applications

Year: II Semester: III

SUBJECT NAME : Programming in JAVA

SUBJECT CODE: BPC41

(Learning Outcome/ Acquisition)

CO1 Acquire knowledge of the features of Java and basic concepts of oops

CO2 Understand the inheritance concept of the java language and write simple programs

CO3 Learn the concept of interface and packages.

CO4 Learn the essentials of Exception handling, Applet and concept of stream

classes.

CO5 Understand the concept of AWT Controls and menus.

DEPT: B.Com Computer Applications Year: III Semester: IV

SUBJECT NAME : Business Statistics & Operation Research II

SUBJECT CODE: CDC4A

(Learning Outcome/ Acquisition)

CO1 Explains the concept of Operations Research and its uses in different fields.

CO2 Formulates a real life problems into linear programming

CO3 Deals with the application of LPP in business and demonstrates to solve LPP using geographical and simplex methods.

CO4 Elucidates the transportation problem with necessary examples.

CO5 Illuminates the concept and application of Game Theory.

DEPT: B.Com Computer Applications Year: III Semester: IV

SUBJECT NAME : Environmental Studies SUBJECT CODE: ENV4A

(Learning Outcome/ Acquisition)

CO1. Students understood about the multi-disciplinary environments

CO2. Students got an insight about the natural resources and its types

CO3. Students learnt about the eco-system and its types.

CO4. Students got an idea about the bio-diversity and its conservation

CO5. Students understood about the environment pollution and its types

CO6. Students learnt about the social issues and the environment

CO7. Students got an insight about the human population and its various reasons.

DEPT: B.Com Computer Applications Year: III Semester: V

SUBJECT NAME : Financial Management SUBJECT CODE: BPC5A

(Learning Outcome/ Acquisition)

CO1 Students understood about the concepts of Financial Management, Functions of finance and role of financial manager.

CO2 Students understood about the meaning of capital structure and leverage.

CO3 Students understood about the meaning of cost of capital and different types of cost of capital.

CO4 Students understood about the meaning of dividend and dividend policies

CO5 Students understood about the working capital and the factors influencing working capital.

VB PRACTICAL

CO1 Acquire knowledge to develop an application using VB

CO2 Understand the database connection.

CO3 Learn how to create menu driven and generate a report

CO4 Understand the Marksheet procession application

CO5 Develop the telephone directory maintenance.

DEPT: B.Com Computer Applications

Year: III Semester: V

SUBJECT NAME : Research Methodology

SUBJECT CODE: BVC5C

(Learning Outcome/ Acquisition)

CO1 Introduction of research, its meaning and types of research, research process and research problems.

CO2 Importance of research design, various research design for various types of research.

CO3 Framing hypothesis for a research problem, its formulation, types, sources. Hypothesis testing Procedures. Introducing the concepts relating to hypothesis.

CO4 Gaining depth knowledge about the data, data collection methods, its importance, questionnaire and schedule.

CO5 To get an insight about the procession and analysis of data, central tendency, correlation, regression, linear programming.

CO6 Inculcating the knowledge of report writing. Briefing about the parts of reports and the content of the same.

DEPT: B.Com Computer Applications

Year: III Semester: VI

SUBJECT NAME: Business Environment

SUBJECT CODE: BPC6A

(Learning Outcome/ Acquisition)

CO1. To know about the concept of the business environment and various factors like legal, political, economic, cultural, etc. which affects the business environment

CO2. To understand the role of government in business and various directive principles and articles with reference to our constitution

CO3. To learn about the social and cultural factors affecting the business and various social organizations and social responsibilities of the business

CO4. To know the five year planning objectives and results and economic factors like GDP, GNP, population etc that affects the business growth.

CO5. To learn the financial and non-banking institutions of India and various functions of RBI, stock exchange and commercial banks.
