	CO5: Determine the framework in advertising, role of media in advertising and ethical standards in advertising.	E
TSSE1 - Computing Skills	CO1. Understand the fundamentals of operating systems and networking.	U
	CO2: Understand the basic features in MS word, MS Excel and MS power point.	U
ENV4B - Environmental Studies	CO1: Explain the concepts of ecosystem and biodiversity.	U
	CO2: Explain the environmental problems, policies and practices.	U
III Year - V Semester		
ST25A - Abnormal Psychology I	CO1: Distinguish between normal & abnormal behavior and outline the historical background and need for classification.	E
	CO2: Summarize the various models of abnormality.	U
	CO3: Identify clinical features and causes of neurodevelopmental disorder, conduct disorder & neurocognitive disorder.	P
	CO4: Explain the clinical features and causal factors of anxiety related disorder.	U
	CO5: Outline the clinical features and causal factors of somatic and dissociative disorder.	U
ST25B - Social Psychology I	CO1: Outline the nature, history, principles and scope of social psychology and methods used in social psychology research.	U
	CO2: Illustrate the significance of self- presentation behaviors in relation to the multifaceted development of the self.	U
	CO3: Infer the interconnections between attitude and behavior.	U
	CO4: Compare the reasons of conformity, compliance and obedience.	A
	CO5: Summarize the conditions promoting helping behavior and infer conditions of bystander effect.	U

Course Code & Course Name	Course Outcomes At the end of this course the students will be able to	Cognitive Level
ST25C - Introduction to Research Methodology	CO1: Explain the needs, objectives , importance , problem and process of research based on review of literature.	U
	CO2: Identifying research problems and formulating hypothesis.	P
	CO3: Distinguish between the different types of sampling.	A
	CO4: Examine the methods used in data collection.	A
	CO5: Demonstrate an understanding of writing a research report.	U
ST25D - Health Psychology	CO1: Outline the definition and scope of Health Psychology.	U
	CO2: Explain the various models of health behavior.	U
	CO3: Identify types of pain, symptoms and suitable intervention .	P
	CO4: Summarize theories of stress, sources of stress and coping.	U
	CO5: Explain health promoting strategies.	U
ST45A - Sports Psychology	CO 1: Explain the need, importance and research methods in sports psychology.	U
	CO 2: Relate physical activity and Mental Health.	U
	CO 3: Describe the nature, measurement of attitude towards sports behavior.	U
	CO 4: Classify various abilities and skills.	A
	CO 5: Explain the prevalence, etiology and intervention of alcohol and drug use among athletes.	U
VAE5Q - Value Education	CO1: Students will be able to Understand the basic concept of values in life.	U
	CO2: Students will be able to Acquire the values oriented to education in life.	U
III Year - VI Semester		
ST26A - Abnormal psychology II	CO 1: Explain the causes of unipolar and bipolar disorder and treatment.	U
	CO 2: Outline the clinical feature, causal factor and treatment of schizophrenia and other psychotic disorder.	U
	CO 3: Summarize types, causes and treatment of Personality disorder.	U
	CO 4: Explain the types ,causal and treatment of substance related disorder.	U
	CO 5: Identify the different types of prevention and summarize the different models of therapies.	U

Course Code & Course Name	Course Outcomes At the end of this course the students will be able to	Cognitive Level
ST46A - Guidance and counselling psychology	CO 1: Identify the need and importance of counselling in the current context.	P
	CO 2: Explain the various approaches in counselling and the types , uses & diagnosis in counselling process.	U
	CO 3: Summarize the interpretation of psychological tests in counselling.	U
	CO 4: List the qualities of an effective counsellor.	R
	CO 5: Identify the special areas of counselling.	P
	CO 6: Spell out the ethical guidelines laid down by the American Psychological Association and the role of counsellor in promoting good Mental Health.	R
ST46B - Human Resource Management	CO 1: Outline the basic concepts of human resource management.	U
	CO 2: Relate the need for job analysis in relation to Human Resource Planning and Recruiting.	U
	CO 3: List strategies for analysing training needs and developing employees.	R
	CO 4: Explain the techniques of performance appraisal.	U
	CO 5: Spell out how stress management, conflict management and employee empowerment help in employee motivation.	R
ST26C - Introduction to Theories of Personality	CO 1: Explain the concept, assessment, measurement and research methods of Personality.	U
	CO 2: Outline the various psychoanalytic perspectives of Personality.	U
	CO 3: Summarize the life span and trait perspective of Personality.	U
	CO 4: Outline the existential humanistic perspective of Personality.	U
	CO 5: Explain Behavioural, Cognitive and Social perspectives of personality.	U
St26B - Social Psychology II	CO 1: Outline the theories of persuasion and illustrate the factors in resisting persuasion.	U
	CO 2: Determine the influence of various group behaviors in relation to individual's performance.	E
	CO 3: Outline the nature, sources and consequences of prejudice and illustrate methods to counteract effects of prejudice.	U
	CO 4: Summarize the theories of aggression and strategies to regulate aggression.	U
	CO 5: Identify the dynamics of intimate relationships in relation to internal and external sources of attraction.	P
