 STUDENTS' CORNER
***#Lost in night***

That's a dark night, who doesn't love  
to have a night gaze with glittering stars.  
Here and there, everywhere can't exactly  
count it. I'm clearly confused.

Just wondering about the more less  
darkness. Getting lost in the warmth of night.  
Though moon is all alone, it neither feels or  
discourage itself. One must learn this.
